LITHIUM SERIES® II Electric Torque Tool

The LITHIUM SERIES II Electric Torque Tool is the next revolution in bolting technology redesigned from the ground up with expanded functionality, greater durability, and intuitive usability. This lightweight 36 Volt battery powered tool, with capacity up to 5,000 ft-lbs (6779 Nm), is the ultimate solution for strength and portability in industrial bolting jobs worldwide. This tool is compatible with conventional sockets, the HYTORC Washer, and the HYTORC Nut.

FEATURE LIST

- **TorcSense™ Technology**
- **Brushless Motor**
- **All Aluminum Housing**
- High Strength Gearbox
- Nickel Plated
- Rear Shock Guard
- Work Light
- High Resolution Display
- **Directional Switch**
- Snug Function
- **Intuitive User Interface**
- Access Levels
- Data Acquisition
- **Bluetooth Wireless Technology**
- Expanded Job Data Management
- Advanced Bolting Features
- **Compatible with HYTORC Nut**
- **Compatible with HYTORC Washer**

▪ Please see the following two pages for detailed information about the highlighted features above.

TESTIMONIAL

"I HAVE BEEN AROUND PLENTY OF BOLTING TOOLS, SEEN MANY TOOLS USED. BUT THIS IS REALLY COOL! IT'S LIGHTER THAN I EXPECTED, IT'S REALLY FOOL PROOF, AND SO SIMPLE THAT ANYONE CAN GET THE JOB DONE. THE GUYS ARE GOING TO BE ABLE TO WORK LONGER AND SAFER, WHILE STILL GETTING THE JOB DONE RIGHT. I LOVE IT!"

Kyle Chambers
Texas Quality Assurance

TorcSense™ Technology

A direct torque measurement system utilizing a strain based transducer in a closed loop monitoring system provides more repeatable torque and enables advanced bolting features.

BRUSHLESS 36V DC MOTOR

The tool uses an all new 36V brushless DC motor which runs cooler, quieter, and has significantly longer life.

INTUITIVE USER INTERFACE

The home screen and menu structure have been redesigned with all new icons, indicators, and simple navigation layout making the tool intuitive and simple to use.

BLUETOOTH WIRELESS TECHNOLOGY

Now standard with Bluetooth wireless technology, the tool makes data transfer easier than ever! Job data and tool firmware upgrades can now be performed wirelessly.

MULTIPLE TOOL CONFIGURATIONS

The tool is easily configured for conventional sockets and reactions arms (1), the HYTORC Washer System (2), and precision mechanical tensioning with the HYTORC Nut (3).

ALL-ALUMINUM HOUSING

The new all-aluminum housing vastly improves impact resistance and durability protecting the tool's vital components. The gearbox is also nickel plated for corrosion resistance.

DIRECTIONAL SWITCH

Conveniently located near the trigger, the sliding directional switch can quickly change drive direction from tighten and loosen with a simple push of a button.
